Labette Health Moves Field House Project Forward

“Independence Community College is proud to announce that Labette Health is a partner in the renovation of the College Fieldhouse,” College President Dr. Vincent Bowhay said on Tuesday. “Thanks to their leadership gift the athletic training area in the facility will be updated.”

“The College and city are fortunate to have Labette Health investing in Independence, and making quality care available here,” said Bowhay. As the medical provider of

Independence, and southeast Kansas, Labette Health provides emergency care, family medicine and express care, internal medicine and pediatrics, women and children’s care, dermatology, general surgery, and urology as part of Labette Health’s Independence Healthcare Center at 510 N. Peter Pan Road. Labette Health also operates the Community College’s student health clinic.

“Labette Health is committed to the health and well-being of the people of Independence and the region, and we are excited about our upcoming expansion of Independence Healthcare Center,” President & CEO Brian Williams said. “Just as we are an important community anchor, so is ICC. We are pleased to help advance the health of student-athletes with the Field House NEXT Project.”

The Field House NEXT Project was announced by the College and Foundation in April. “With Labette Health’s announcement we have crossed the \$600,000 mark,” Foundation Executive Director Bryce Saia said.

The rehabilitation of the field house includes a new court, bleachers, lighting, and other improvements to the interior gymnasium. The men’s and women’s locker rooms, athletic training room, and the lobby are slated to be updated once funds have been raised. The last major renovation of the field house occurred in 1987.

According to Saia, the project has benefited from several significant donors. “Donors to this project can make pledges over a five-year period and can utilize different gift-giving vehicles – gifts of cash, securities, IRA distributions, and more. The involvement of alumni and friends is important as we move forward.”

College Receives Grant from USDA to Expand Healthcare Access

The U.S. Department of Agriculture (USDA) has announced a significant initiative aimed at expanding access to healthcare for over 110,000 rural Kansans. Director for Kansas Rural Development, Christy Davis emphasized USDA's dedication to ensuring that rural Americans have access to reliable and high-quality healthcare services. The announcement highlights the allocation of Emergency Rural Health Care Grants, totaling \$129 million, to improve healthcare facilities in 38 other states and Puerto Rico.

Independence Community College is one of two sites in Kansas to receive funding. The college will receive a \$30,100 grant to be used towards an on-campus health care center on the main campus. This center will collaborate with Labette Health to provide medical services to students, staff, and faculty both on-site and through telehealth services.

“Ensuring students have access to health care is vital to their academic success,” said College President Dr. Vincent Bowhay. “I thank our partners at Labette Health and the USDA for their continued support in this important endeavor.”

Background: The Emergency Rural Health Care Grants were made available through the American Rescue Plan Act, which was passed by Congress in March 2021 to offer immediate economic relief to those affected by the pandemic. Responding swiftly, USDA made this funding available to ensure the sustained availability of healthcare services in rural areas. The grants aim to support rural hospitals, health care clinics, tribes, and communities, offering immediate relief and expanding access to healthcare services and nutrition assistance.

Veterinary Nursing Department Enhances Dental Care with State-of-the-Art Radiography Equipment

The Veterinary Nursing Department at Independence Community College (ICC) has made a significant advancement in patient care with the acquisition of the Midmark VetPro Complete Dental Digital Radiograph. Thanks to the support from the Kansas Industry and Labor Force Expansion Grant, this cutting-edge dental radiograph system will enable Veterinary Nurses to provide a Comprehensive Oral Health Assessment and Treatment (CO-HAT) for their patients, significantly improving their ability to address oral health issues effectively.

The addition of the digital radiograph system marks a transformative shift, empowering students to practice a more holistic approach to patient records, dental care, and client education.

“The dental radiograph system enriches our library of instructional radiographs, enabling students to gain more exposure as they work with an increasing number of patients. This immersive learning experience prepares them to excel in their career and provide the highest standard of patient care,” said Maria Perez, Program Director.

The impact of this advanced radiology equipment extends throughout the curriculum, with students introduced to the physics of radiography and trained in producing radiographs. During their Principle of Anesthesiology labs and Veterinary Surgical Nursing labs, students will continue to hone their skills in using the dental radiograph system and identifying dental structures.

Moreover, with the implementation of the Vivix Flat Panel Detector for Digital Radiography, another equipment upgrade made possible by the Kansas Industry and Labor Force Expansion Grant, the Veterinary Nursing Department has further streamlined the radiography process. This digital system allows for nearly instantaneous capture and storage of radiographs, eliminating the time-consuming process of using cassettes and readers for digitization.

The new digital panel offers numerous advantages to students, including increased lab time for developing skills in positioning, exposing, and reading radiographs. This upgrade reduces stress and enhances the learning experience, ensuring that students are well-prepared to handle similar systems during their summer externships and future careers.

“By investing in advanced radiological technology, we are committed to providing the best possible education and training to our Veterinary Nursing students. The upgraded digital system reflects the gold standard in radiography, reinforcing ICC’s dedication to excellence in veterinary education,” concluded Perez.

This forward-thinking approach aligns with ICC’s mission to foster skilled and compassionate Veterinary Nurses who are prepared to excel in the field. The enhanced radiology equipment not only elevates the educational experience but also enables students to pursue specialized credentials, such as a Veterinary Technician Specialty (VTS) in Dentistry, setting the stage for their professional growth and development.
