Re: Second Reading of Revisions to Board Policy TRU-923

Board Policy provides for two readings of proposed policies and/or revisions prior to inclusion in the Board Policy Manual. The second reading of proposed Board policy TRU-923 is proposed below.

CODE: TRU-923

SUBJECT: Board General Fund Contingency

ADOPTED:

The annual budget shall set aside approximately one-half percent (0.5%) of the budgeted revenues each year for Board Contingency. Use of Board Contingency shall be at the discretion of the Board of Trustees, in consultation with the President, and shall be allocated by formal approval of the board according to its policies.

Re: Second Reading of Revisions to Board Policy TRU-924

Board Policy provides for two readings of proposed policies and/or revisions prior to inclusion in the Board Policy Manual. The second reading of proposed Board policy TRU-924 is proposed below. Policies following this in the Board Policy and Procedure Manual would move to follow this policy.

CODE: TRU-924

SUBJECT: Board Stabilization Reserve Fund

ADOPTED:

The board may require the President to establish a separate reserve for the purpose of providing short-term stabilization in anticipation of possible shortfalls in revenue.

A stabilization reserve fund may be established under one or more of the following circumstances:

- State budget appropriations for community colleges are not approved by the time the college budget is approved and adopted.
- A situation exists where significant changes in enrollment are possible but not reasonably predictable.
- When any major revenue source has a reasonable possibility of decreasing after the college budget is approved and adopted.
- When any operating expenditure that is beyond the control of the college could reasonably be expected to increase after the college budget is approved and adopted.
- Any other situation in which the board determines that there is a reasonable expectation that major shifts in revenue or expenditures could occur during the budget year.

Stabilization reserve levels:

- Minimum reserve levels shall be at the discretion of the Board of Trustees under advice from the President.
- Maximum reserve levels shall be no more than the maximum reasonably estimated shortfall at the time of the adoption of the budget.

Stabilization reserves will be reviewed annually as part of the budget development process. The stabilization reserve fund shall be closed out when the board determines that the precipitating threat to revenues and/or expenditures no longer exists. If the conditions exist that caused the fund to be established, the funds shall be kept in reserve for the purpose intended. When the fund is closed out, any remaining balance shall be released for use as a resource in the General Fund.

Re: Second Reading of Revisions to Board Policy TRU-925

Board Policy provides for two readings of proposed policies and/or revisions prior to inclusion in the Board Policy Manual. The second reading of proposed Board policy TRU-925 is proposed below.

CODE: TRU-925

SUBJECT: Board Capital Reserve Fund

ADOPTED:

The college shall establish and maintain separate reserve funds in Capital Projects Fund for the following purposes:

- 1. To replace capital equipment that is broken or beyond its useful life as determined by the Capital Assets Replacement Forecast;
- 2. To maintain and repair college facilities according to the Major Maintenance Schedule;
- 3. To maintain and upgrade the college's information/telecommunications system according to planning schedules maintained by Information Technology;
- 4. To build new instructional facilities and/or to purchase property that facilitates planned long-term growth of the college.

Appropriate levels of funding for reserves will be determined using existing college decision-making structures. The president will make recommendations to the Board of Trustees for approval to establish and fund these reserves.

Optimal funding levels will be determined using benchmarks, professional standards and best practices from other colleges and adapting these to ICC's specific situation. It is expected that full funding of these reserves will take place over several years and that annual transfers to these reserves will be budgeted from the General Fund and other sources as appropriate.

Re: Recommendation for HVAC System Replacement

1. Purchase Item Agreements (>\$10K)

1.1. Purchase of Services/Equipment

Recommendation to replace the chilling, heating and ventilation system for the entire student dorm building (Captain's Quarters):

Building Controls and Services, Inc. (Wichita, KS) – Project shall not exceed \$300,000

The current HVAC system for the Captain's Quarters is over 20 years old and has suffered multiple failures over the years, some of which can either no longer be repaired or would be cost prohibitive as parts are no longer manufactured. The purchase will include a multi-level chilling, heating and ventilation system that will climate control all levels of the building while helping reduce the spread of airborne pathogens and particulates, while affording appropriate humidity control to decrease the risk of mold growth. This purchase is eligible for grant funding.
